Research identity

Postdoctoral researcher in orofacial pain, with a focus on epidemiological and clinical studies of painful temporomandibular disorder (p-TMD), early-life risk factors, and pain epidemiology.

Research interests

- Early-life and lifestyle-related risk factors for painful temporomandibular disorders and headache
- Multidimensional clinical characterization of p-TMD (pain, psychosocial, somatosensory, lifestyle)
- Translational approaches linking experimental, clinical, and registry-based pain research

Positions

1 May 2026 – present

Postdoctoral Researcher — Orofacial pain and jaw function

Department of Dentistry and Oral Health, Aarhus University, Denmark

2022 – 2026

PhD Researcher — Orofacial pain and jaw function

Department of Dentistry and Oral Health, Aarhus University, Denmark

Supervisor: Prof. Lene Baad-Hansen, Aarhus University

Co-supervisors: Prof. Bodil Hammer Bech, Aarhus University; Prof. Luda Diatchenko, McGill University

2018 – 2022

Clinical Practitioner — Oral Medicine

Bahonar Hospital, Kerman University of Medical Sciences, Iran / Roshan Dental Clinic, Kerman, Iran

Clinical focus: oral mucosal diseases, orofacial pain, temporomandibular disorders

Education

PhD, Aarhus University, Denmark (2022 – 2026)

Dissertation: "Painful temporomandibular disorders and headache in young adulthood: early-life factors and multidimensional clinical characterization" — defended 4 September 2026

MSc in Oral Medicine (2014 – 2017)

Kerman University of Medical Sciences, Iran

Thesis: "Effects of chronic facial pain on the tendency to use morphine and cannabinoids in conditioned place preference in male rats"

Supervisors: Associate Prof. Mohammad Reza Zarei; Prof. Goli Chamani

Doctor of Dental Surgery (DDS) (2006 – 2012)

Kerman University of Medical Sciences, Iran

Teaching and scientific dissemination

International conferences:

- European Academy of Orofacial Pain and Dysfunction (EAOPD) Conference, Athens, Greece, 18–19 September 2026 – Poster presentation
- International Association for the Study of Pain (IASP) World Congress, 2024 – Oral and poster presentations
- European Academy of Orofacial Pain and Dysfunction (EAOPD), 2023 – Poster presentation

Teaching:

- Teaching in Orofacial Pain and Jaw Function, preclinical dental curriculum (oral physiology), Department of Dentistry and Oral Health, Aarhus University (2022–2026) — approx. 150+ hours during PhD period
- Lecturer in Oral Medicine, undergraduate dental students, Kashan University of Medical Sciences (2017–2018)
- Lecturer, workshops on research principles and oral medicine, Kerman University of Medical Sciences (2014–2017)

Research methods and skills

- Statistical analysis: STATA, R, SPSS
- Epidemiological methods (prospective cohort studies)
- Clinical phenotyping and questionnaire-based pain data
- Experimental animal models of orofacial pain
- Scientific writing and peer-review process

Peer-review activity

Reviewer, Journal of Oral Rehabilitation

Reviewer, Addiction & Health

Reviewer, NeuroImage

Honors and awards

- Iranian Board of Oral Medicine, 2017
- Ranked 1st among all postgraduate students
